

Reflection

Jamaica Serafina

BSCS 1

August 28, 2020

After watching the online mass on Facebook, I realized that the situation we are facing today is a reminder that God is always with us.

We should always thank God for the blessings that he gave to us, some of us did not notice it but we've been receiving a lot of blessing especially when COVID 19 virus has spread all around here in the Philippines, this virus killed a lot of people around the world, being alive until now is a big blessing that we should thank for. God has a plan and all we need to do is to trust him, have faith in him, and always pray so that this virus COVID 19 will stop as soon as possible. During this pandemic, it's important to help each other and spread love especially to our front-liners that are fighting the virus, so that we can go back to normal.
