HELLO

MY SPORTS

chill

That was me as a baby, and me when I was 12 years old. I grew up in Abha, K.S.A on the 3rd of January, 2002.

I am the youngest from the 4 siblings in our family. I love to play the bass and sports like basketball.

I am a cheerful, funny, and approachable. People always tell me that I'm tall and a perfect copy of my father.

MY FAMILY

We're not that rich but my parents are able to provide us our needs. I am grateful to God for all the blessings we receive from Him everyday.

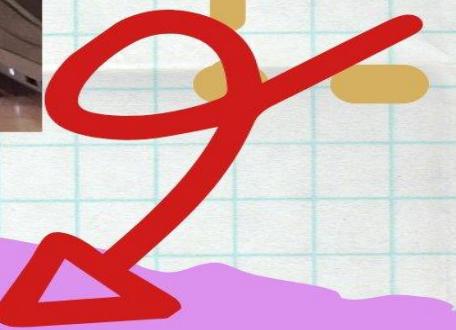

I am thankful that I have a wonderful family. Although, we are separate from one another, we still made a way on how to contact them thanks to technology.

I am looking forward on seeing them soon. I want to spend time with them, watch movies, go outside, and share them all my stories.

Everybody is unique in their own way, just like mine that I can lift other people when they are sad. I am also unique from the way I see things, I comprehend, and express my character. I may not be smart or talented, but I am a hard-working person.

I already considered myself a gift from God from the moment I was born in this world. God also gave me talents that I can share from people and can use as a profession.

Another thing that I consider a gift is being patient and always kind to people. I always forgive and not hold a grudge against someone. Those are the things that I am thankful of, also being raised well by my parents, and being surrounded by wonderful people.
