I am God's Masterpiece

How I consider myself as
God's masterpiece

I dedicated my life to God
and serve him in his Holy
altar for more than 10 years.

A Server
of God

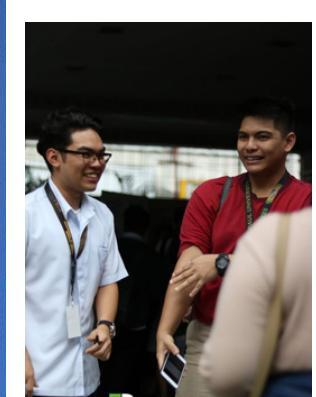

God gave me a voice for others
and use it for journalism.

The use of
my talents

He created me, a masterpiece, and make others comfortable and happy in my works.

God chose me to be his voice

To our health workers, who are away from their families to take care of ours,

Do not let this current crisis bring you down. We, the Filipino citizens, are together with all of you in prayer. We are grateful beyond words for what you have done since the start of this pandemic. We, the future leaders of this country, will look up to all of you and treat you as an inspiration, as we will govern this country in the near future. Your works are works of heroes of this country and of the world. We thank you.

To all of the delivery workers and sanitation employees, who are working so we are safe in our homes,

We thank you for your selfless service. We all are at risk but you are sacrificing so that we are all safe. We are also praying for you and your families.

Let this current crisis be a call for all of us to be together in prayer. We thank you for your service and sacrifice, not only to the country, but to mankind. We are with you in prayer.

I Am Not Special, yet...

I still consider myself not special, but in his eyes, I am. He is someone that I didn't ask to believe in me and yet he did and still is. And because of his faith in me, and my faith in him, it will serve as my fuel to become something special and make myself feel worthy of being a masterpiece.
